Symington Offers Facts On Involvement in Laos

WASHINGTON (AP) — The Nixon administration is reported escalating the clandestine war in Laos while attempting to scale down the conflict in Vietnam, Senate testimony has revealed.

About 200 Americans were killed in the Laotian conflict from 1962-69, the testimony disclosed, and approximately 200 more Americans are listed as missing or prisoners of war.

The figures compare with recent White House announce-

ments that less than 50 Americans died in Laos in ground combat operations and less than 300 had been killed in air operations over the nation.

The extent of the U.S. involvement in the Southeast Asian nation came to light Sunday when Sen. Stuart Symington, D-Mo., released the heavily censored transcript of Senate foreign relations subcommittee hearings into American involvement in Laos. The hearings were conducted last October.

Symington said the "figures which Col. Tyrell shows emphasize there has been a heavy escalation of our military effort in Laos."

Escalation of the Laotian war came after the U.S. halted the bombing of North Vietnam in the fall of 1968, the testimony says.

About 150 of the approximately 200 Americans killed in Laos were increased "roughly 100 per cent" as a result of a request for a heavy stepup in air support from Laotian forces headed by Gen. Vang Pao.

Symington said the "figures which Col. Tyrell shows emphasize there has been a heavy escalation of our military effort in Laos."

Escalation of the Laotian war came after the U.S. halted the bombing of North Vietnam in the fall of 1968, the testimony says.

Biggest cuts came in capital improvements as the governor held his recommendations to the bare minimum. Only essential repairs were approved in most cases.

The total capital request, including federal and other funds, was \$190.6 million. The governor slashed that to \$172.2 million.

The \$6.8 million to build a new maximum security prison and \$3 million for a maximum security facility for juveniles were eliminated entirely. The last special session in January authorized money to buy a site for a maximum security prison and start developing it.

Funds for the poultry and fruit experiment stations at Mountain Grove were eliminated entirely. The poultry station asked \$278,821 in operating funds and the fruit station sought \$235,267.

Most state agencies got the same or less than they received this year in the governor's recommendations to the special session which opened last Wednesday. Detailed budget figures were not available before today.

NEWS IN BRIEF

ST. LOUIS (AP) — Harold J. Gibbons, president of Teamsters Union Joint Conference 13 and an international vice president, said Sunday he will not intervene in the work stoppage by 3,500 members of Teamsters Local 600 in St. Louis.

VIENNA (AP) — The United States and the Soviet Union met for 90 minutes today in their second session on strategic arms limitation talks.

NEW YORK (AP) — Spokesmen for the three major networks said President Nixon's address to the nation on Vietnam tonight would be carried live on radio and television at 8 p.m. CST.

INSIDE STORIES

Florida Governor Claude Kirk faces an uphill battle for his re-election. Page 8.

Judge Harry A. Blackmun, new Supreme Court nominee, is worried about his stand on capital punishment. Page 9.

Astronauts' Homecoming is Triumphant

SPACE CENTER, Houston (AP) — James Lovell stepped briskly from the White House jet, paused briefly to smile hello and headed straight for a station wagon out of sight of the welcoming crowd.

Inside was a frail lady, beaming. Lovell opened the door and brushed his lips against her cheek.

"Hello, Mom," he said. "It's good to see you."

Only then was there time for the 5,000 who had come to cheer Lovell, Fred Haise and Jack Swigert home.

Home Again. Back to the home they thought they might never see again.

Although their mission to land on the moon was not achieved, their return was a triumph.

They'd had other welcomes: from the swimmer who first reached their capsule after splashdown Friday, on the carrier Iwo Jima that brought them to Samoa, from President Nixon and their families when they reached Honolulu.

But the welcome Sunday night from their Space Center community was different.

This is the place where they trained for man's third visit to the moon, an effort thwarted by an explosion. These were the people who, by the thousands,

were totally committed to bring them home.

There were the officials who run things. There were Mission Control personnel.

But there were, too, the children from the astronauts' neighborhoods of El Lago and Timber Cove. Everywhere there were kids—the Space Center kids learned about thrust and apogee before they finish the alphabet.

These were the people who worked the hardest while the world rooted the loudest.

In front of the platform, in back of the ropes reserved for VIPs, stood a slender, nearly bald man. When the speeches

were over he moved toward an airman guarding the way.

At first the airman hesitated about letting him through. The man showed his badge and finally got in. He was Edwin Aldrin, who with Neil Armstrong was the first to step on the moon. He got a welcome like this last July, but now it was Apollo 13's turn.

Also back in the crowd, watching quietly, was Joe Kerwin—another of the four main flight directors. Lovell spotted him, pointed a finger and said, "I see you, Joe."

Later, while the handshaking was going on, Lovell walked over to a friend wearing a sport

shirt, pinned his arms and looked with mock intensity at his face.

He didn't find what he was looking for—measles spots. The man was Thomas K. Mattingly, the third member of the Apollo 13 crew whose place Swigert took. Officials had worried that Mattingly might get the measles; he hasn't.

Ahead of the trio, at their homes, were welcomes from their neighbors. At the Lovells, for instance, they lined the street with luminaries—candles covered with paper sacks. And

Stage Set for Showdown At Viet Cong Held Town

PHNOM PENH, Cambodia (AP) — Four Cambodian battalions moved up today to the edge of the riverside town of Saang, 18 miles southeast of Phnom Penh, and began making preparations to try to dislodge a Viet Cong force that occupied the town Sunday.

It is the closest the Viet Cong have moved to Cambodia's capital.

The Cambodian command post was about 400 yards from where the lieutenant colonel in charge believed the Viet Cong had set up their positions. A spotter plane circled overhead, hunting for guerrillas along the banks of the Bassac River.

The Viet Cong moved into Saang Sunday afternoon after government troops abandoned the town without a fight. The commander of the local garrison estimated the size of the Viet Cong force at about 100 men, but the commander sent in today increased this to two battalions.

One patrol suffered light casualties when it ran into a Viet Cong ambush. And a Viet Cong round landed near the Cambodian command post.

The Cambodian soldiers, many of them fresh recruits, were taken to Saang in open buses painted red, green and orange. The buses were left in the road, and the men scattered

alongside. Only a few dug in.

Since the ouster of Prince Norodom Sihanouk on March 18, the Viet Cong had advanced no closer than 28 miles to Phnom Penh, in their clashes with government troops.

The Viet Cong and North Vietnamese are now active in much of the territory between Phnom Penh and the South Vietnamese border. Last week a Cambodian army unit fled into South Vietnam after its post at Phnom Den was overrun. Thirty of these Cambodian soldiers were

seen Sunday at Tinh Bien, a South Vietnamese border town 65 miles south of Phnom Penh.

The big South Vietnamese task force that crossed into Cambodia last week on Highway One closed out its operation after a four-day sweep and dismantled the two camps it had set up just inside South Vietnam. The force of more than 3,000 troops claimed to have killed nearly 400 North Vietnamese and Viet Cong.

While the Viet Cong moved closer to Phnom Penh, diplo-

mats in the capital said the North Vietnamese and Viet Cong may also be setting up a base in northeast Cambodia for an opposition government led by Prince Sihanouk.

European travelers reported that the Viet Cong have begun establishing major installations 155 miles north of Phnom Penh in Kompong Cham Province, including a hospital with nurses and American trucks captured in South Vietnam.

The diplomats said they expect Sihanouk to return from

Peking within a month and declare an insurgent government in the northern provinces of Kompong Cham, Mondulkiri and Ratanakiri, which are thinly populated and near Laos and North Vietnam.

Most of the civilian population has fled from the city of Kompong Cham, once Cambodia's second largest, leaving 300 to 500 Vietnamese women and children under guard in a detention camp set up in the local sports

(See STAGE, Page 4.)

Impeachment Plan Creates Stir

WASHINGTON (AP) — House Republican Leader Gerald Ford's decision to head a move to impeach Supreme Court Justice William O. Douglas has touched off doubt and dismay among many of his GOP colleagues.

Although the move is a popular one among conservative Republicans, a sampling of liberal and moderate GOP sentiment discloses serious reservations about it.

"I think it is fair to say there is a good deal of anguish among the members," says an influential Republican moderate.

One complaint against Ford is that he failed to discuss his intention to spearhead the anti-Douglas drive with his fellow leaders, so other opinions might be expressed.

The party's national chairman, Rep. Rogers C. B. Morton, R-Md., expressed misgivings about the timing of the move at a GOP leadership conference Friday.

Coming on the heels of Senate rejection of two of President

Car Wreck Kills Three Missourians

(Democrat-Capital Service)

CLINTON — Three persons, one from Warsaw, were killed and another was seriously injured in a two-car collision at the intersection of Routes U and 7 at Coal, Mo., 11 miles east of Clinton, at 8 a.m. Saturday.

Listed as dead are Richard D. Harris, 19, the driver of a 1969 eastbound Chevrolet and a passenger in his auto, Joyce Elain Fritts, 18, both of Adrian; and Margaret A. Moore, 51, Route 2, Warsaw, a passenger in her husband's westbound 1969 Dodge.

Speaking at the meeting were: Donald Levi, assistant professor of agriculture, the University of Missouri-Columbia; Jack McCall, environmental health specialist, University of Missouri Extension Division, St. Louis and Dr. Robert Edmonds, local pediatrician.

The meeting was called, Skelton said, to publicize ideas on how to mount an anti-pollution crusade in Western Missouri. Attending the luncheon were area civic leaders, physicians and educators.

Skelton noted that this week is devoted to anti-pollution programs in colleges and state legislatures across the nation. He invited citizens to write him in Lexington, and give him their ideas and views on what could be done to curb pollution.

A candidate in the Aug. 4 primary, Skelton is seeking the Senate seat now held by Sen. John Ryan of Sedalia.

Shooting Results In Murder Charge

Howard Parrish, 51 1/2 South

Engineer, is facing a state complaint, signed by Prosecuting Attorney Henry Keeler, charging him with second degree murder, Keeler said Monday afternoon.

The charge stems from a shooting incident at 11 p.m. Saturday in which William Everett Fox, 24, 1308 East Seventh, received an abdominal gunshot wound from which he died at 9 a.m. Monday.

Pettis County Coroner, Dr. C. Gordon Stauffer, has requested an autopsy, Keeler reported.

The shooting occurred, Sedalia police said, when Fox, accompanied by his brother and sister-in-law, Elvin and Virgie

Ann Landers

Slapstick Comedy Not For Weddings

Dear Ann Landers: We just returned from a wedding which has left us shattered. If we had not seen it with our own eyes we would not have believed it. The bride, a charming young woman, looked heavenly in her satin gown and ivory lace veil. The ceremony and reception was the most elegant this town has seen in years.

At cake-cutting time the guests gathered around the bemaing couple. A photographer was on hand to capture the beautiful moment. To the astonishment of everyone in the place, the groom took the first piece of cake and, instead of sharing it with his beloved, he plastered it against her face—completely covering her hair, eyes and nose with white, sticky frosting.

The groom then announced, "That's for good luck—a tradition where I come from."

The bride fled from the room half laughing, half crying. Her mother ran after her. In a few moments they both returned. Nothing was said. This certainly spoiled the wedding for me and for everyone else. I have never heard of the "custom" before. Have you? Shocked.

Dear Shocked: The groom said it was a good luck tradition

James E. Albin, son of Mr. and Mrs. Harold F. Albin Sr., Tipton, has been commissioned a second lieutenant in the U.S. Air Force after graduating from Officer Training School at Lackland AFB, Tex. The lieutenant, selected for OTS through competitive examination, is being assigned to Webb AFB, Tex., for pilot training. Lt. Albin, a 1964 graduate of Tipton High School, received his A.B. degree in 1968 from the University of Missouri.

where he came from? A Mack Sennet Comedy? I've never heard of plastering the bride's face with wedding cake. The bride is going to need all the good luck she can get. I think she married a nut.

Dear Ann Landers: Please tell the 16-year-old who wanted to be treated like a lady not to be so hard on the boys. It's hard to tell these days what females want.

Most of them are clamoring for equal pay and equal opportunity. They demand a place in men's military academies, colleges, dorms, locker rooms, sports, business and industry. They dress like men, talk like men, drink like men and light up cigars in public dining rooms.

I had to laugh when the girl described how the boy pushed her out of his way at the bus stop and got on first. He probably learned that shoving technique from watching his mother at a sales counter in a department store. Women can

be ever so much cruder than men and somehow it looks twice as bad because they are women.—An Observer

Dear Ob: Manners know no gender. There's no excuse for shoving people around, male or female. But here's one thing you can count on in this ever-changing world: the battle between the sexes will never be won because there's too much fraternization with the enemy."

Confidential to A True-Blue Friend: Stop being so "friendly" or you'll wind up paying her bills again, Dummy.

Confidential to Those Talk Jewish: I don't know anyone who "talks Jewish." There is no such language. Do you mean Yiddish or Hebrew? These are two separate and distinct languages. Some Jews can speak both. Some speak neither.

DECEPTION AND HEALTH

By Carl J. Hamilton, D.C.

Many people are taken in by deception. They are unable to distinguish between the true and the false. They go by appearance only and do not investigate the truth of a proposition so they must suffer the consequences.

The philosopher Bacon tells us: "A lie has no legs and cannot stand; but it has wings, and can fly far and wide."

Truth is commonplace and few people seem interested in its promotion. Falsehood and scandal, however, like burs, seem to catch on to every passing thing and are carried by nearly everyone, thus resulting in much harm.

Epidemics are as much the product of fear propaganda as they are of the disease itself. More people are made ill, and perhaps as many die from fear of disease as are actually killed by it.

Taking something to induce sleep is likewise a deception that does not correct the condition but rather creates an added evil to curse you for your folly.

Drug addicts are usually produced as a result of deception in an effort to gain temporary relief. The cost is dear. The price you pay is too much for the limited satisfaction you gain through this health deception.

Health is a very simple thing. It is nothing more or less than the

normal expression of function in the body which results from setting free nature's forces in the glands and organs through the medium of the nervous system.

The thing that simplifies the health proposition is the fact that all trunk nerves are distributed from the spinal column. The nerves make exit through grooves between the vertebrae. This makes the spine the key to health and of vital importance. A slight displacement of the spine is nearly sure to block the nerve channels and interrupt the passage of sensation and the transmission of energy over the nerves.

Chiropractors maintain that falls and accidents very often place a vertebra sufficiently to pinch nerves. This lowers resistance and eventually results in disease with its various symptoms. The name of the disease does not matter so much. The cause that produces it is important and must be corrected if health is to return to its fullest measure.

Chiropractors are skilled in locating and adjusting this spinal cause of disease. There is no deception about it. They set free the forces within and nature begins at once to normalize the tissues. In due time health returns.

Consult your local chiropractor about your health problem. Let him explain the cause back of most disease and tell you how this can readily be corrected by spinal adjustments which clear the nerve channels and establish normal function.

Health is yours for the asking when you conform with the laws that govern health.

The Chiropractic Center
826-0123
of Miller's Park Plaza

The challenge of being the only.

As any wise husband knows, no woman likes to be taken for granted. It's the little things that count, like remembering anniversaries, or bringing home flowers for no particular reason.

Like the wise husband we try not to take you, our customer, for granted. Being

the only phone company in town, we make a special effort to be courteous, kind, considerate, and understanding.

The fact that we are the only phone company in town is a challenge. The challenge is "not to act like it."

Southwestern Bell

This Week in Business

NEW YORK (AP) — The action of the gross national product in the 1970 first quarter has failed to settle the debate over whether the economy has slipped into a recession.

While the GNP—total of all goods and services—failed to show real growth for the second consecutive quarter, the dip of 1½ per cent from the 1969 fourth-quarter level was not considered by some economists to be very meaningful.

In the past the lack of real growth—which discounts the effects of inflation—in two successive quarters has been generally considered to mean that a recession has developed. However, some government and private economists now feel that such a conclusion is not always valid.

The GNP at current prices rose in the first three months of this year by \$8.2 billion to an annual rate of \$960.4 billion, the Commerce Department reported this past week. But the real GNP—based on 1958 prices—declined to \$729.8 billion.

Comparison of the two sets of figures showed that inflation still was galloping in the 1970 first quarter.

As expected, the over-all trend was a decline from the profit level of the first three months of 1969. This was most evident among companies producing higher priced durable goods.

Those companies reporting lower earnings were almost unanimous in blaming rising costs of materials and labor despite higher prices charged con-

vengers. An increasingly cautious attitude by consumers in this inflationary period also was a major factor in the whittling of profits.

The flood tide of first-quarter corporate earnings reports headed for a crest this past week with economists, business executives and stock market investors attempting to find in them signs of the economy's

state of health.

The Commerce Department reported this past week that Americans' personal income rose by \$4.1 billion in March to an annual rate of \$782.6 billion. The increase was about on a par with those in February and January but was somewhat larger than the average gain in the last four months of 1969.

Housing starts in March expanded by 6.3 per cent to an annual rate of 1,383,000 units from

1,301,000 in February. Scattered strikes by Teamsters union members against trucking companies this past week began to take a toll of industrial production.

American Motors Corp. shut down most of its operations because of a parts shortage.

Drowning Victim

ANNAPOLIS, Md. (AP) — Norman Renaud, about 40, drowned Sunday when his farm tractor toppled off a partly washed out bridge over Carver Creek near this iron County community.

Officers said the accident occurred about 5 a.m. and Renaud's body was recovered in mid-afternoon.

Troopers Are Leaving Kansas City

KANSAS CITY (AP) — Two nights of apparent calm led to withdrawal from the city Sunday of 168 Missouri highway patrolmen who helped stand anti-bomb watch Friday and Saturday.

A conference was being held today to determine whether to keep the police force on 12-hour shifts and whether the Metro police squad should continue investigating last week's bombings.

Detectives said there were no significant gains in the investigation.

An unexploded bomb found behind a Country Club Plaza church Thursday night has been sent to the FBI laboratory in Washington for further study.

Two boys called police to a vacant house on the east side Sunday after finding more than 250 blasting caps in the place. Some of the electric caps and their wires were tied together and strung throughout the building. Some had been detonated.

Police said the caps apparently were placed in the house by juveniles and were not related

to the bombings. Mrs. Dorothy Feitz, who lives next door, said the house has been vacant since 1961 and has been a hangout for juveniles. She said she had heard what sounded like rifle shots in the area for several days.

The God of Miracles Lives

SPACE CENTER, Houston (AP) — Apollo 13's astronauts today begin telling specialists about what happened on the near-tragic space journey.

The others were aboard the recovery carrier Iwo Jima, on their first landfall in Samoa, and in Honolulu where President Nixon Saturday gave them the nation's highest civilian award, the Medal of Freedom.

The President praised their poise and skill in bringing their spaceship in after it was damaged last Monday night 202,000 miles from home.

Nixon took the wives of Lovell and Haise and the parents of bachelor Swigert to Honolulu to greet the astronauts.

Churches around the world Sunday offered prayers of thanksgiving for the safe return of the spacemen.

Lovell, Haise and Swigert returned to their homes near the Space Center Sunday night after a flight from Honolulu. They were greeted by more than 5,000 persons who gathered at nearby Ellington Air Force Base.

Lovell told the crowd:

"Needless to say, Jack and Fred and I are very proud and glad to be back here in Texas tonight because there were many times when we really didn't think we'd make it back here."

"And I can say with all sincerity," the Apollo commander added, "we would not be here if it was not for the people on the ground, in Mission Control Center, helping us all the way."

Swigert, a last-minute replacement for measles-exposed Thomas K. Mattingly II, echoed Lovell's words. "Of all the welcomes home we've had, this one means the most, because it was these people out here who made it possible for us to be here."

Haise said, "We had the prayers and good wishes from people all over the world and we appreciated that very much."

Mattingly, without measles, was in the welcoming group.

It was the fourth tumultuous

welcome since the spacemen returned safely to earth Friday with a bull's-eye splashdown in the Pacific.

Mattingly, without measles, was in the welcoming group.

It was the fourth tumultuous

as soon as possible later this week.

Cortright said he would be at the Space Center Tuesday to talk with the astronauts. He said the review board probably would do most of its work in Houston.

On Sunday, NASA added 50 members to an original 100-man mission evaluation team which is analyzing evidence to determine what caused oxygen tank No. 1 in the spaceship's service module to blow up.

The explosion wiped out the command ship's main oxygen and power supplies and forced the spacemen to rely on the systems of the lunar module for survival during the four days it took them to get back to earth.

The investigation will center on the oxygen tank and its electrical and plumbing systems — a tank which burst at a pressure of 1,008 pounds per square inch, damaging an adjacent oxygen tank and blowing out a 10-foot-long panel on the side of the service module.

Congress, which has been in-

creasingly reluctant to spend large sums of money for space exploration, will hold hearings to probe shortcomings.

Critics of the program may demand a redirection with less emphasis on lunar exploration and more on the development of earth orbiting space stations that would provide more direct benefits to mankind.

Before introducing Lovell, Haise and Swigert at the Space Center welcome-home ceremony Sunday night, NASA Administrator Paine said he had discussed the space program with President Nixon, and that the President authorized him to release this statement:

"There will be those who seize upon this as an opportunity for a slowdown, a turning back. But we're not that kind of people. We are not going to be diverted by adversity or setback. We have set a good course, a forward course, and we will not falter in our re-

OBITUARIES

Mrs. Florence A. Marlin

Mrs. Florence A. Marlin, 73, 1214 South Mildred, died at 10:45 a.m. Sunday at Bothwell Hospital.

She was born in Johnson County, Oct. 27, 1896, daughter of the late David J. and Ida Fluty Rinard.

She was married at Marshall, Apr. 2, 1936 to William L. Marlin. They lived near Smithton, moving recently to Sedalia.

Mrs. Marlin was a member of the Emmett Avenue Baptist Church.

She is survived by her husband, William L. Marlin; a son, David Driskell, Fullerton, Calif.; a stepson, Bill Marlin, Hampton, Va.; two stepdaughters, Mrs. Virginia Perry, 1510 South Grand Ave.; Mrs. Martha Murray, St. Louis, and a brother, Russell Rinard, Kansas City. Four grandchildren, five step-grandchildren, and four great-grandchildren also survive.

Mrs. Marlin was preceded in death by one brother, Alfred Rinard, and two half-brothers, David Rinard and Dick Rinard.

Funeral services will be held at 2 p.m. Tuesday at the Hays-Painter Funeral Home, Pilot Grove, with the Rev. Farrie Cole, Jr., officiating.

Burial will be in the New Lebanon Cemetery.

Friends may call at the funeral chapel from 10 a.m. Monday until the time of service.

Mrs. Agnes C. Cassing

Mrs. Agnes C. Cassing, 514 South Kentucky, died at 5:15 p.m. Sunday at her home.

She was born in Otterville, daughter of the late William and Ida May Schults Gentry. She moved to Sedalia in 1930 and was receptionist for the late Dr. Charles Osborne.

On Sept. 20, 1934, she was married to Henry W. Cassing, who survives of the home.

Also surviving are a daughter, Mrs. Patricia Hammond, Springfield; two sisters, Mrs. Lottie Burford, 522 South Barrett Ave.; Mrs. Mae Arnold, 1420 East Seventh St.; a stepmother, Mrs. Eula Gentry, 611 West 16th St.; and two grandchildren.

Funeral services will be held at 2 p.m. Tuesday at McLaughlin Funeral Home with the Rev. Farrie Cole officiating.

Mrs. H.O. Foraker will play organ selections.

Pallbearers will be Russell Gilmore, James G. Harrison, Bill G. Arnold, Arlin Joy, David Menefee and William F. Swain.

Burial will be in Memorial Park Cemetery.

The body is at the funeral home.

Edward H. Templeire

Work on a new Continental Trailways bus depot at 617 South Kentucky should be complete by mid-May according to Dr. Floyd S. Lively, owner of the building.

Construction work is being done by Tempel-Callison Co. of Sedalia, who started work on the project in March.

Dr. Lively said he will lease the depot to Midwest Bus Lines division of Trailways. The present station is at 123 East Third.

The new depot is a one-story structure, 21 by 48 feet, and features a waiting area, rest rooms, storage area and separate driveway for busses. Presently, busses have to park on the street.

Shooting

(Continued from Page 1) jail for failure to pay \$90 in back fines until the state complaint was filed by Keeeler.

No dates were available Monday afternoon for either a preliminary hearing for Parrish or for the autopsy.

Police reported that Elvin Fox received treatment at Bothwell Hospital for superficial injuries he received when he was struck from behind while he was attempting to assist his brother. Details on that incident were not available.

Fox was the son of Everett and Joanne Fisher Fox. He was an employee of Parkhurst Mfg. Co.

Surviving are his mother, of the home; two brothers, George Fox, of the home; and Fred Fox, 815 North Prospect; two sisters, Mrs. Joanne Bush, Sedalia; and Mrs. Shelby Fisher, 1613 East Fourth; and his grandmother, Mrs. Roxie Ashbrook, 217 East Sixth.

The body is at Heckart-Gillespie Funeral Home pending funeral arrangements.

Wreck

(Continued from Page 1)

Wetzel Hospital in Clinton, suffering from a laceration to the left side of his head, a fractured right leg, fractured ribs, hip injury and possible internal injuries. He is listed in serious condition.

Miss Fritts' body was taken to the Atkinson-Dickey Funeral Home, Adrian.

Mrs. Moore's body was taken to the Amos Family Funeral Home, Overland Park, Kan.

Funeral services for Harris will be held at 2 p.m. Tuesday at Reser Funeral Chapel.

Burial will be in Riverside Cemetery.

The family will receive friends from 7:30 to 8:30 p.m. Monday at the funeral home.

Mrs. Lola Foster

LINCOLN — Mrs. Lola Foster, 83, died Saturday evening at Good Samaritan Nursing Home, Cole Camp.

She was born in Benton County, Nov. 8, 1886, daughter of the late James and Ellen Earhart Taylor. On May 24, 1905, she was married to Fred Foster, who died June 28, 1966. She was a member of the First Baptist Church.

Surviving are five sons, James Foster and Chester Foster, both of Kansas City; Ira Foster, Lincoln; Raymond Foster, Auburn, Neb.; Fred Foster, Raytown; three daughters, Mrs. Bertha Garrison, Edwards; Mrs. Goldie Swearingen, Lees Summit; Mrs. Emma Jean Sadler, Kansas City; a sister, Mrs. Etta Wing, state of Washington; two half-sisters, Mrs. Etta Jones, state of Washington; Mrs. Laura Engle, Kansas City; 29 grandchildren; and 53 great-grandchildren.

She was preceded in death by three sons, a daughter and a brother.

Funeral services will be held at 2 p.m. Tuesday at the church with the Rev. Eugene Rodewald officiating, assisted by the Rev. E.O. Farrier.

Burial will be in Shady Grove Cemetery, near Warsaw.

The body is at the Fred Davis and Sons Funeral Home, where the family will receive friends from 7 to 9 p.m. Monday.

Oscar Kueffer

CALIFORNIA — Oscar Frederick Kueffer, 79, died at his home at 12:45 p.m. Sunday.

He was born in California, July 16, 1890, son of the late Jacob and Elizabeth Isendschmid Kueffer. On Nov. 4, 1919, he married Charlotte Harriette Thompson of Bellevue, Mo.

He was a member of the United Church of Christ, American Legion Post 17 of California, and served with the U.S. Army in 1918.

Survivors include his widow, of the home; two daughters, Mrs. William Jones, Kansas City; Mrs. Sam Bower, Columbia; two brothers, Edward Kueffer, California; William Kueffer, St. Louis; two sisters, Mrs. Barney Lawson and Mrs. Arthur Ernst, both of California; four grandchildren and one great-grandchild.

Funeral services will be held at 2 p.m. Tuesday at the Bowlin Funeral Home with the Rev. Marvin Kirkman officiating.

Burial was in Highland Sacred Gardens.

Mrs. Roy Tarr

Funeral services for Mrs. Roy E. Tarr, 1020 South Missouri, who died Saturday at Bothwell Hospital, were held at 2 p.m. Monday at the McLaughlin Funeral Chapel with the Rev. Garner S. Odell officiating.

Burial was in Crown Hill Cemetery.

Pallbearers will be Cletus and

John Tarr, sons of the deceased.

FOOD & FIBER NEWS

University of Missouri Extension Centers
Henry - Johnson - Lafayette - Pettis

Cattlemen and judges are cordially invited to participate in the one-day Beef Cattle Judging Workshop at the Livestock Center, University of Missouri-Columbia, on Thursday. The event starts at 8 a.m. and ends at 4:30 p.m.

Bulls, females, and steers will be judged and classified. In addition to the numerical placing, the cattle will be graded according to newly adopted standards of the Missouri Department of Agriculture.

You will actively participate in this event. You will place them, grade them, agree or disagree with the official opinion, and ask questions.

HOG PICTURE

Prices aren't the only difference. Costs vary, too. Nineteen Show-Me Area swine producers in Pettis, Lafayette, Johnson and Henry Counties and enrolled in the Mail-in Record Program, and kept detailed cost records. All cash and non-cash costs allocated to hogs show costs of production for farrow to finish hogs to average \$18.29 per cwt. However, the range was from \$12.23 to \$24.60. Feed costs averaged \$12.38 per cwt. Costs other than Feed Averaged \$5.91 or almost \$6 per cwt. The above is for the 1969 year.

SALE AVERAGE

At the ninth Missouri all-breed performance tested bull and heifer sale in Columbia on April 8, two Charolais bulls averaged \$750, seven Hereford bulls averaged \$812, 33 Angus bulls averaged \$1,138, and 26 Polled Hereford bulls averaged \$961.00 each. The sale average on 68 bulls was \$1,025.

GRASS WATERWAY

If some of you farmers can't get grass to grow in your waterway, I wish you would drive out to see the waterway built and seeded early last fall on the Bill Pittman farm. It places most lawns to shame. Good grass sod in the waterway is the secret and foundation of any terracing program.

D.H.I.

In March Lena and Chancey Houseworth supervised the testing of 651 dairy cows in 13 herds.

The 651 cows on test produced an average of 919 pounds of milk and 35 pounds of butter fat. The value of product per cow averaged \$51.00 and the average feed cost per cow was \$20.

The five highest herds for the month were Richard Lenz, Robert Longan, Ned Monsees, Clyde Rehmer and Kenneth and Dale Lenz.

The owners with cows in ten highest production for the month were Richard Lenz with six cows, Yeater and Rhodes with two cows, Roland Oelrich one cow, Paul and Dean Birdsong one cow.

Herds that had a cow to finish a 305-day lactation period above 500 pounds butter fat was Richard Lenz and Roland Oelrich.

SOYBEAN PLANTING RATES

Soybeans have a great ability to adjust to differences in stand. For this reason Bill Murphy of the University of Missouri College of Agriculture has seen no great reason in the past to "pinpoint" planting rates for different varieties of varying seed size. The general recommendation, which is still sound, has been 30 to 34 pounds per acre of good seed in 36-inch

40-inch rows, and 60 to 75 pounds per acre of seed for drilled beans, with adjustment between these figures for intermediate row widths. There may be reason to exceed these rates by increasing rates by one-third to one-half on fields that are expected to crust very heavily, since thickly planted beans do assist each other in breaking through such a crust, even though such thick stands are a disadvantage after the beans emerge. So this should apply only to very heavy clay soils.

The very real reasons for "pinpointing" corn planting rates seems to be leading to more demand by soybean growers for exact planting rates based on seed size, row widths, and percent germination. The increased corn yield that have accompanied thicker corn also seems to have influenced some soybean farmers toward planting heavier per acre rates of soybeans, usually to their disadvantage. So, while making no change in basic soybean seeding recommendations, the following more detailed information may be useful in helping some farmers avoid excessive planting rates, save on seed costs, and be better prepared to make adjustments that may seem desirable to fit their specific conditions.

High seeding rates result in decreased stem diameters, and increased plant lodging. Lodging often results in decreased yields directly, and commonly means that more beans are left in the field when harvesting. As soybean yields go up beyond 40 bushel-acre, lodging could well be the greatest limiting factor to still higher yields.

Thick stands of soybeans are not necessary to get yield, although stands that are very thin will branch enough that some low branches may not get into the combine. Actually, in Mississippi tests, no significant yield differences were found in planting six, nine, 12, 18 and 21 seeds per foot of row in normal row widths.

Results obtained by University of Illinois in 1969 give support to the idea that excessive populations cause competition for light, moisture, and nutrients, often resulting in early lodging, lower yields, and greater harvest problems, especially for those farmers operating at higher yield levels.

If one intends to use a rotary hoe, increase the seeding rate approximately 10 per cent to compensate for expected loss of plants.

While some states have higher recommended rates of planting than Missouri, there is beginning to be considerable recognition that soybeans are generally being planted too thick. Purdue University recommendations roughly correspond with those of the University of Missouri, in that Purdue recommends the following harvest population for various row widths: 40 inch row requires six to eight plants per foot, 30 inch rows need five to seven plants per foot and 20 inch rows need three to five plants per foot.

Soybean herbicides have reduced the need for thick planting to "crowd weeds out of the row." Good germinating seed removes need to overplant "to insure a stand." And the need to "plant heavy to break the crust" should be applied

Tornado Damage

Debris is scattered along a street in Corinth, Miss., after a tornado touched down there Sunday. Five persons were killed and over 100 homes were leveled by the twister. (UPI)

only on soils with a major crusting problem. For many growers the motto should be: Plant less seed for more soybeans.

MORE PROFITABLE

Fast-gaining cattle are more profitable than slow-gainers in the feedlot. Research has indicated that 10 pounds increase in daily gain will cut about 35 pounds from the amount of feed needed for 100 pounds of gain. The feed needed to maintain the animal's body is spread over more pounds of gain at higher rates of gain, resulting in an automatic increase in feed conversion. Faster gains mean fewer days in the feedlot, which cuts down on the total feed needed for body maintenance, yardage, and other costs that occur every day the steer is kept on hand.

A number of factors determine how fast cattle will gain. Genes account for around 55 to 60 per cent of the difference (heritability estimate of feed lot gain, 57 per cent). Cattle that have had growth slowed by poor environment will compensate by gaining faster in the feedlot. Gains are slower on silage and other high-roughage rations than is the case on high-grain rations. Roughages must be a cheaper source of nutrients than grains to offset the extra costs tied to slowed gains, if they are to compete with grains for a sizable portion of the feedlot.

CROSSBREDS

Crossbred feeders are increasing in popularity. Research at the University of Missouri and other stations has shown cross breeds do not have as much hybrid vigor for gains made after weaning as is true for gain up to weaning. In feedlot or pasture comparisons at Missouri, crossbred calves gained about 2 to 3 per cent faster than the average of their parent breeds. Crossbreds have shown little heterosis for carcass traits. In most instances they have conformed to the average of the parents. A lack of sizable improvement for the crossbred steer in feedlot performance does not mean that he is not the preferred steer. He may have more utility because he expresses improvement in a weak trait of a straight breed. For example, he will gain faster than the slow-gaining parent and marble better than the poor-marbling parent. This shows why it is important to cross breeds that are strong in traits that will complement the weaker traits of other breeds in the cross.

Soybean herbicides have reduced the need for thick planting to "crowd weeds out of the row." Good germinating seed removes need to overplant "to insure a stand." And the need to "plant heavy to break the crust" should be applied

Production Holds Lure For Crenna

By BOB THOMAS
Associated Press Writer

RANCHO LA COSTA, Calif. (AP) — Is this Crenna's last stand? The actor Richard Crenna was here for a movie location which might—or might not—mark the end of his movie acting career.

The movie is "Doctor's Wives," a saucy tale of the high times among affluent medics. It is being produced by Mike Frankovich, the man who gave you "Bob and Carol and Ted and Alice" and directed by George Schaefer, ditto of "Generation."

If this is indeed Crenna's final flick, he is going out with a bit of sensation. He has bedroom scenes with Diana Sands, who plays his mistress, and with Janice Rule, who plays his wife. "She rapes me—my wife, that is," Crenna explained. "Imagine this happening to me—the guy who always played Mr. Clean."

The reason why "Doctor's Wives" may—then again, may not—mark the finis of Crenna's film career is that he is going into partnership with Danny Thomas in a production company. First off, Crenna will act as executive producer of Thomas' new series for ABC, "Make Room for Granddaddy."

"That'll just be the beginning," said Crenna. "We expect to get a couple of spinoffs out of the series—spinoffs are pilot films that appear in a regular series. And Danny and I also have a deal to make three films for ABC's Movie of the Week."

This development in Crenna's career came as a surprise to those who know him only from his acting in television—"Our Miss Brooks," "The Real McCoys," "Slattery's People"—and movies—"The Sand Pebbles," "Star!" "Marooned."

"But they don't realize that I have also directed between 50 and 60 television shows," he observed. "I also directed pilot films for two series that later sold—'No Time for Sergeants' and 'Wendy and Me,' as well as

Focus of a Tour On Agribusiness

MARSHALL — T. North Pile of the Hales and Hunter Co. here was among 33 Missouri agribusiness leaders who recently completed a three-state flying study tour of major agribusiness operations in the Midwest.

The tour included stops in Texas, Oklahoma and Kansas. It was sponsored by the Missouri Chamber of Commerce in cooperation with the M.U. College of Agriculture, the State Department of Agriculture and the State Division of Commerce and Industrial Development.

Will Get Shrimp For His Efforts

HILTON HEAD ISLAND, S.C. (AP) — A load of shrimp will be sent Sunday from this resort and fishing island to Interior Secretary Walter Hickel in Washington as thanks for his help in an anti-pollution effort.

The trawler Davey Jones will make the inland waterway journey to publicize objections of island interests to planned construction nearby of a chemical plant by the West German Basf Corp.

Hickel recently told the firm it must meet federal antipollution requirements. The firm says it is awaiting detailed federal guidelines.

a couple that didn't sell. I've always been interested in production."

He began doing something about it during the run of "The Real McCoys." After the third year of the bucolic series, he decided the only way to keep his sanity was to direct some of the segments.

Co-star Walter Brennan told him: "If you're crazy enough to want to do it—go ahead."

Crenna did, found he liked being on the other side of the camera, ended up directing 13 Andy Griffith shows as well. He was offered the chance to direct a feature, "If It's Tuesday, This Must Be Belgium," but passed it up to act in another film, "The Midas Run." An error in judgment, he now admits.

Farm Roundup

Increase in Feed Cattle Is Running as Expected

By DON KENDALL
AP Farm Writer

WASHINGTON (AP) — A predicted increase of 5 to 6 per cent in the number of cattle being fattened for slaughter is about on target according to Agriculture Department reports.

The 22 major cattle feeding states had more than 11.5 million head in fattening pens on April 1, a boost of 5 per cent from a year earlier. The Crop Reporting Board said.

Actual marketings of fed cattle during the April-June quarter are expected to gain about six per cent from the same period last year, the board said.

Consumer demand for more grain-fattened beef, reflected in strong cattle and retail meat prices, however, has reduced the number of cows and calves—the so-called "nonfat" beef—going to slaughter.

Last year, for example, slaughter of cows increased only about one per cent. Economists say the 1970 slaughter will be about the same as in 1969 or possibly "a little less."

Therefore, total beef produc-

tion this year is expected to gain moderately, including a predicted 2 to 4 per cent gain during the first half.

The department's slaughter report showing red meat supplies for the first three months is expected to be issued in about two weeks. The most recent report showed January-February total red meat output down four per cent, due mostly to sharp cut backs in veal and pork. Beef production in the first two months rose one per cent.

Economists are still standing by earlier forecasts for a rise in pork output after midyear because of an anticipated increase in the late winter and spring pig crop.

The latest cattle feeding report said the average weight of market steers in March was 1,162 pounds, compared with 1,103 pounds a year earlier. Heifers averaged 969 pounds live weight, compared with 922 pounds a year ago.

Officials also noted that the 11.5 million cattle and calves on feed April 1 compared with about 6.5 million head 10 years

ago, illustrating the trend to more cattle fattening operations.

WASHINGTON (AP) — Flower production is not a standard farm operation but it is increasing as an important specialty crop, says the Agriculture Department.

The 1969 wholesale value of four important flowers and foliage plants was \$228 million, a boost of seven per cent from 1968, says the Crop Reporting Board.

Sales of carnations, gladioli, roses and chrysanthemums last year totaled \$191 million, while foliage plants added \$9 million, officials said.

California was the leading producer of carnations, standard chrysanthemums, potted chrysanthemums and roses, while Florida led in pompon chrysanthemums, gladioli and foliage plants.

WASHINGTON (AP) — A newsletter issued by the Kansas Cooperative Council includes this observation regarding procrastination over new farm legislation and its importance to farmers:

"When a man is up to his shirttail in alligators, he has difficulty reminding himself that his initial objective was to drain the swamp."

Use Razor Blades To Cut Jail Bars

SARASOTA, Fla. (AP) — Two men are on the run from Sarasota County Jail after using stainless steel razor blades to cut through cell bars.

Deputy Sheriff Wayne Woodie said four men cut completely through the top of a 1.5-inch steel bar in one cell, cut half-way through the bottom of the bar and then bent it out of the way to make a 19-inch opening.

The four tied 15 pairs of jail coveralls together to lower themselves 2 1/2 stories to the ground early Wednesday.

One man broke his elbow in a fall and was captured quickly; another was picked up in near Bradenton.

But the other two men—one accused of armed robbery and one held on burglary charges—remain at large.

Credit Union Meeting

"Money Management" was the topic of discussion at a recent meeting of the West Central Chapter of Credit Unions, held recently at the Bothwell Hotel. Co-host for the meeting was the

Utili-Comm Credit Union of Sedalia, represented by, left to right: Mr. and Mrs. William Copas, James Steele, Jerry Newby, Don Kuhlman, Mrs. Steele and Mrs. Kuhlman.

Short Supply Expected Of Jobs for Graduates

NEW YORK (AP) — Graduating college seniors, accustomed to being wooed by business and industry, will find it harder getting jobs this summer than in past years.

A tight job market resulting from a general economic slowdown and cutbacks in government defense expenditures will have the class of 1970 scrambling after jobs rather than being chased by companies. But there will be enough positions to go around.

Students can take some consolation, however, from the fact that salaries will be record high for those winning the top positions. On the other hand, some students in certain fields may have to consider changing careers.

An Associated Press survey shows these trends shaping up on campuses across the country:

The number of companies cancelling recruiting visits is running as high as 25 per cent at some colleges and universities.

Students with bachelor degrees in the technical fields will be the hardest hit. There is little demand in the aerospace, electronics, electrical machinery and automotive industries.

The higher the degree a student has, the less chance he has of getting a job he wants. It's a bad year for holders of master's degrees and doctorates with many advanced-degree alumni returning to their alma maters to seek help in finding jobs.

Companies are more picky this year: they want higher grades and fewer long-haired, sloppy dressers.

Placement experts say severe budgetary belt-tightening by the federal government has had the greatest impact on the job market for college graduates. With a cut of \$4 billion in defense spending and \$350 million knocked out of the space program, corporations aren't getting the contracts they used to. Government is hiring fewer people. And universities aren't getting research grants.

The only exception is the chemical engineer, who is in great demand. Starting salaries for him are hitting \$12,400 a year. A healthy demand also is reported for specialists in the petroleum and public utilities industries.

With a vast supply of young manpower and lessening demand, employers are being choicer than ever. Standards are high for the projected 746,000 students who are expected to graduate with bachelor's degrees.

"The 'you-may-kiss-my-hand' attitude is gone now," says Maurice Mayberry, placement director at the University of Florida in Gainesville. "Students who have figured on easy jobs during the past three or four years are coming to a rude awakening. Now, not only is their mode of dress changing but their practices are too. They are learning to write letters and do other traditional things of job-hunting."

Over-all, salaries on the bachelor's level are up between 5 and 7 per cent over last year, according to the College Placement Council, a nonprofit group.

Couple Found Dead

SMITHVILLE, Mo. (AP) — An elderly farmer and his wife were found shot to death in their home near Smithville Sunday and officers said it apparently was murder and suicide.

Dead were Arthur Turner, 71, and Mrs. Frances Turner, 69.

which keeps tabs on college recruiting. The council says the average offer to technical students has risen from \$819 to \$861 a month; the average offer to non-technical students from \$711 to \$765 a month.

Despite the waning demand in the technical fields, placement experts say demand is fairly

good for law graduates, pharmacists, accountants, specialists in marketing, computer applications and finance, and teachers depending in which section of the country they are located.

Experts also say minority group graduates are in great demand.

U. S. troop levels in South Vietnam last week were put at 428,000 or 5,800 below the last announced authorized ceiling.

SAN CLEMENTE, Calif. (AP) — President Nixon will outline his approach to further U.S. troop withdrawals from South Vietnam in a television-radio address tonight—and perhaps unveil a surprise or two.

Nixon will speak at 9 p.m. EST.

Sources at the Western White House cautioned today against advance speculation that Nixon would announce a successor to Henry Cabot Lodge as chief American peace negotiator in Paris. Press Secretary Ronald I. Ziegler indicated earlier in the month that such an announcement might be imminent.

At the same time, these sources did not rule out the apparent likelihood that Nixon, in what is billed as a 10- to 15-minute "update report" to the nation, would go beyond mere discussion of troop levels and break new ground in presidential discussion of the Southeast Asian situation.

Since Nixon last took to the airwaves to discuss the Vietnam war, last Dec. 15, the conflict has broadened, particularly in Cambodia, which seeks U.S. arms following a coup that overthrew the neutralist government of Prince Norodom Sihanouk.

Through Ziegler, the United States has deplored reported Cambodian massacres of Vietnamese living in that tiny country. And the State Department has said the arms request is under consideration.

The Nixon administration also has taken an interest in a statement last week by Jacob A. Malik, Soviet ambassador to the United Nations, that indicated possible interest from that quarter in a new Geneva conference to take up the entire Indochina situation. However, Malik told ABC-TV News Saturday that "convening such a conference is unrealistic at the present time."

U. S. troop levels in South Vietnam last week were put at 428,000 or 5,800 below the last announced authorized ceiling.

Nixon was expected to announce plans for a fourth-phase withdrawal of around 50,000 additional men, although perhaps stretching out the movement over a longer period than the four months that saw the latest withdrawal of 55,000.

The gradual reduction in U.S. armed strength in the war zone began last June, ending about four years of steady escalation.

Nixon flew to his California villa late Sunday from Honolulu, where he greeted the three Apollo 13 astronauts Saturday on their return to the United States. He honored the space heroes with the Medal of Freedom, the nation's highest civilian award.

The chief executive and Mrs. Nixon will return to the White

House Tuesday.

Arriving at nearby El Toro Marine Corps Air Station, Nixon told a welcoming crowd of about 1,000 that the long, fast-paced trip to meet astronauts James A. Lovell Jr., John L. Swigert Jr. and Fred W. Haise Jr. "was one of the most memorable events of our lives."

As he had in Honolulu and during a Saturday stop at Manned Space Headquarters in Houston, where he conferred the Medal of Freedom on the Apollo 13 mission ground crew, Nixon emphasized the mission's man-over-machine theme.

Before leaving Hawaii, the Nixons attended Sunday services at Honolulu's 150-year-old Kawaiahae Church founded by New England missionaries who

first brought Christianity to the islands.

Addressing the congregation on what he had proclaimed as a day of prayer and thanksgiving for the safe return of the astronauts, Nixon said:

"I think more people prayed last week than perhaps have prayed in many years in this country ... Let us remember we have come a long way in this country, because we have had faith in God."

The pastor, the Rev. Dr. Abraham K. Akaka, delivered a sermon during which he alternately strummed four strings of a ukulele in harmony and discord to dramatize a plea for racial concord throughout the world. Said the United Church of Christ minister:

"The right pitch for every string from God is not 'be white' or 'be black' or 'be brown' or 'be yellow.' God's pitch is simply 'do justly, be fair, walk humbly and in tune with God.'

Nixon was so impressed he invited the Rev. Mr. Akaka and his choir to participate later, if possible, in a White House worship service.

Country Club Has Spring Fashion Show

"This is fashion year, you can wear what you like best and still be in style," Mrs. Carl Yates, narrator for the Sedalia Country Club Fashion Show, told the members of the country club and their guests Thursday afternoon. As one famous designer put it, Mrs. Yates said, "Women don't have to accept the midi, mini, maxi. They can reject any one of the styles, or lengths. The only way they can show support of their favorite length or style is to buy it. The designers will get the message."

The show of summer fashions followed the ladies luncheon with Mrs. C.A. Wright, chairman, presiding. She introduced Mrs. Louis Hughes, Jr., who was in charge of the luncheon. After guests were introduced, Miss Marian Phipps organized the models who walked through the two rooms where the women were seated at attractively decorated tables, showing the latest trends in summer fashions to the organ music of Mrs. J.C. Griffen.

The centerpieces for the tables were unusually clever and appropriate for a fashion show. Designed by Mrs. Philip Pfeiffer the arrangements of tangerine carnations, blue baby's breath and yellow iris and daisies were centered with miniature dress forms draped

with floral material that picked up the shades of the flowers, and held at the waist with tape measures. Patterns were rolled and tucked in among the flowers and on either side of the arrangements were yellow hurricane lamps.

The fashion show was divided into three categories, sportswear, afternoon and evening.

Models for the show were: Mrs. John Pelham, Miss Trish Cummings, Mrs. Helen Eschbacher, Miss Yvonne Otten, Mrs. Stan Ragar, Mrs. John Cook, Miss Gail Crnic, Mrs. Barbara Doty, Mrs. Milton Heimsoth, Mrs. Claiborn Campbell, Mrs. Herb Brandes, Mrs. Paul Hausam, Miss Jan Richards, Mrs. Frank Walz, Miss Donna Bellamy, Miss Janice Pahlow, Mrs. L.H. Riney, Mrs. Paul Jocquel, Mrs. Bill Shumake, Mrs. John E. Lamy, Miss Alice York, Miss Josephine Chipman, Miss Jeanne Wesson, Mrs. William F. Brown, Mrs. Freida Johnson, Mrs. Janice Luton.

The fashions were from: Lockett's, J.C. Penney's, Montgomery Wards', Connor-Waggoner, C.W. Flower Co., Roth's Burton's, Dora's and Chapman's.

Special guests at the luncheon were Mrs. Cecil Hill, the former Patricia Poundstone, daughter of Mr. and Mrs. O.B. Poundstone, and her daughter, Janet, from Endwell, N.Y., and their guest, a foreign exchange student, Jean Cheyne, of Johannesburg, South Africa.

Women's Page News Policies

To insure timely reporting of news of interest to women, all reports of club and organization meetings must be submitted to the women's editor by 3:30 p.m. the day following the meeting.

Reports of Friday, Saturday or Sunday meetings must be submitted by 3:30 p.m. Monday. Women's department does not guarantee publication of any material turned in late.

All material submitted will be edited to conform with space limitations, and long, overdrawn reports cannot be published.

The Democrat-Capital cannot accept responsibility for damage that might occur to pictures submitted for publication.

Spring Training

When your daughter wants to master the art of cooking, let her produce an entire luncheon for some close girl friends. A light entree like Baked Cheese Timbale, made with Foremost milk, creamy cheese and eggs — is perfect for her "spring training." Baked in individual custard cups, these become an elegant entree when served with broiled tomato halves and fresh asparagus.

League of Women Voters Meets Fund Drive Goal

With the completion of "League of Women Voters Week" the Sedalia-Pettis County Provisional League of Women Voters announced their fund drive goal of \$250 had been exceeded. Members called on interested local businessmen and were pleased with the warm response they encountered. Many civic clubs and individuals were contacted and contributed to the fund drive. Because of the success of the fund drive, the public will be provided with information on issues that are of public interest whether it be local, state or national.

Mrs. Robert Edmonds, president of the Sedalia League, said concerning the successful drive, "Sedalia certainly has generous and civic-minded businessmen who seem genuinely interested in issues and answers. We feel the League can provide a real service by giving them factual information to help them answer these questions."

The LWV in Sedalia will end the provisional year soon and adopt a local program for next fall. Leaguers met in their units this past week and suggested study ideas which the local membership will discuss and adopt at the annual meeting this spring.

Attends State Convention

Seventeen members of the Sedalia Business and Professional Women's Club attended the annual state convention held last weekend in St. Louis. Those attending were Mrs. Marjorie Garanson and Mrs. Richen Price, who will go as representatives of the State Federation; Mrs. Connie Evert, who will represent the local club as Young Career Woman; and those members who served as delegates: Miss Erma Fajen, local president, Mrs. G.A. Boyd, Mrs. Mary Dilthey, Miss Dianne Draisey, Miss Eva Evans, Mrs. R.M. Glenn, Mrs. J.R. Hamilton, Miss Donna

Fledgling Cooks Try Their Wings

In the spring a young girl's fancy turns in lots of directions — including towards the kitchen. About this time it may occur to her that the mystery of cooking can play a large part both in pleasing the opposite sex and impressing the other girls.

So why not quiet that spring restlessness by letting her produce an entire luncheon for some close girl friends — using an almost mistake-proof entree like Baked Cheese Timbale. These individual molds are simple to do, elegant looking, and contain lots of high protein ingredients — milk, creamy cheese and eggs — combined with finely chopped onion, pepper and pimento.

Baked Cheese Timbale needs only a few fresh vegetable go-alongs like broiled tomato halves and cooked asparagus to become a perfectly enchanting spring luncheon entree — impressive, too. Control that urge to help your budding young cook, let her carefully unmold each custard, then top with more of the chopped vegetables for added color and flavor. You might also suggest as a side dish that she slice fresh strawberries and bananas and set on a bed of lettuce.

With the oooh's and aah's from your daughter's most enthusiastic — and envious — girlfriends, she'll soon feel confident enough to try her newly discovered culinary skills on other challenges. Her "spring training" will hold her in good stead for a long time to come!

BAKED CHEESE TIMBALE
1 (8 oz.) package plain or pimento cream cheese
4 eggs, beaten
2 cups milk
1 teaspoon salt

1/4 cup finely chopped green onion
1/4 cup finely chopped green pepper
1/4 cup finely chopped pimento

Soften cheese and beat smooth. Beat in eggs; stir in milk and salt. Combine vegetables and spoon half into bottom of 5 well-buttered deep custard cups. Pour in cheese mixture. Set cups in pan with 1-inch hot water in bottom. Bake in a moderately slow oven (325 degrees F.) until set, about 50 to 60 minutes. Remove from water and let stand 5 minutes. Serve from custard cups, or unmold onto serving plate. Top each custard with some of the remaining vegetables. Makes 5 servings.

Claude Kirk Faces Tough Battle for Re-election

TALLAHASSEE, Fla. (AP) — Republican Gov. Claude Kirk installed a showy style of politics in Florida in 1967, with marriage to a beautiful blonde Brazilian, flags flapping on his limousine and confrontation politics whetted on H. Rap Brown.

Now challengers in both parties are confronting Kirk in his 1970 bid for re-election, most of them betting voters have grown weary of his colorful brand of government.

"We don't have some flamboyant phony," remarked an aide to John M. Eckerd, a drug-store millionaire seeking to wrest the GOP gubernatorial nomination away from the 44-year-old incumbent.

In his inaugural address, Kirk declared a privately-financed "war on crime" with its soldiers conscripted from the Wackenut Corp., the nation's third largest private detective agency.

Sen. Gaylord Nelson, D-Wis., cited it as an example of "an alarming trend in this country toward the use of police state tactics."

The war opened with electronics experts "sweeping" the once quiet Capitol for bugs leading to the governor's office and taps on his telephone. It closed a few months later with about as many minor Democratic office-holders ousted from office as racketeers arrested.

Family Kirk

Soon after taking office, Governor Claude Kirk of Florida married Erika Mattfeld, a Brazilian. Their first child,

a daughter, Claudia, was christened at Palm Beach in December, 1968, when this picture was taken. (AP)

Governor and Governor

School integration and busing are issues which have recently occupied the Republican governor of Florida, Claude Kirk. Here, he speaks to people

in the street in front of the federal building in Miami, explaining his opposition to busing. (AP)

To Expose Earth Day Activities

NEW YORK (AP) — The muck and mire of our polluted planet will be scrutinized in a variety of programs devoted to Earth Day activities Wednesday.

Every network has special programs examining man and his environment and covering nationwide activities of the environmental teach-in.

National Educational Television will devote its entire schedule to Earth Day, from midafternoon to late night. Three regular programs for children—"Sesame Street," "Mister Rogers' Neighborhood" and "What's New" will deal with ecological themes.

NBC's "Today" show is spending the whole week on an in-depth examination of environmental problems.

ABC starts off its coverage tonight with "No Deposit, No Return" at 10:30 p.m. EST. Wednesday it has "Earth Day: SOS for Survival" at 11:30 p.m. On Friday night the network will show "Mission Possible: They Care for the Land" at 10 p.m.

CBS's "Today" show is spending the whole week on an in-depth examination of environmental problems.

ABC starts off its coverage tonight with "No Deposit, No Return" at 10:30 p.m. EST. Wednesday it has "Earth Day: SOS for Survival" at 11:30 p.m. On Friday night the network will show "Mission Possible: They Care for the Land" at 10 p.m.

CBS's "A Question of Survival" at 10 p.m. EST Wednesday looks at the activities of the day.

NBC will cover many of the parades, demonstrations, folk sing-ins and prayer meetings live in a two-hour program beginning at noon Wednesday.

Beginning Sunday, May 3, NBC will inaugurate "In Which We Live," the first weekly series devoted entirely to ecology. Edwin Newman will be host of the show, to be seen at 5:30-6 p.m. EST.

Those sensational pictures from the Apollo 13 recovery zone—seen by an estimated 40 million Americans on their

lunch hour—came from an 18-pound portable camera aboard one of the recovery helicopters. The camera was manned by Jim Whaley of KPRC-TV, Houston, Tex., who was aboard the copter with two CBS technicians as part of the pool coverage. It was the first time the Department of Defense allowed a camera aboard a recovery helicopter.

Watching a color monitor in the ABC control room, Walter J. Pfister Jr., executive producer of ABC's space coverage, exclaimed, "Would you look at that color! That's better than we'll get a week from now on film."

The pictures, relayed back to the carrier Iwo Jima, went by Pacific satellite to the ground station at Jamesburg, Calif.

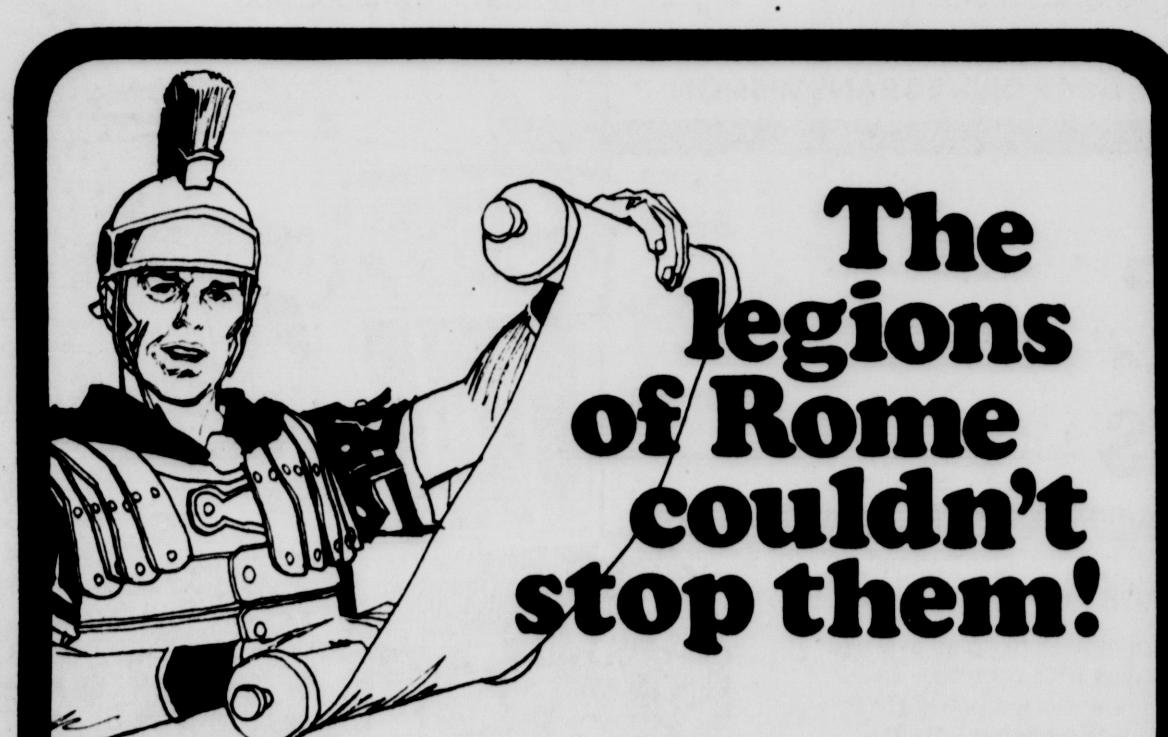

Prehistoric Bones Unearthed in South

JEKYLL ISLAND, Ga. (AP) — Bones of several prehistoric animals have been unearthed in Glynn County during construction on Interstate 95.

The camera, the first with computerized control of color registration, centering and focusing, is capable of wireless operations by means of a microwave dish attached to the backpack. On the helicopter the microwave dish was mounted beneath the fuselage.

Included were remains of a giant and baby sloth, a mammoth sea turtle, an ice age horse and a whale.

Watch Those Suntans To Keep From Aging

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

If you are fair-complexioned and want to avoid premature skin-aging, stay out of the sun's glare—particularly between 10 a.m. and 3 p.m.—even though you are young. This is the recommendation of a University of Pennsylvania medical investigator who found that sun exposure significantly damaged the skins of 80 per cent of youths between 10 and 20 years old.

Slowly the world shows signs of growing more humane. For example, in Costa Rica laws prohibit the working of horses, mules and oxen more than 48 hours a week.

This compares ironically to the praise given by humanitarians novelist Charles Dickens in the last century to textile mill operators in Lowell, Mass., for providing free instruction in music and other feminine accomplishments to their girl employees. But the girls worked from five in the morning till seven at night.

As they wheeled him into the operating room, he turned to an aide and ordered: "Don't slack up on anything—keep charging."

Do you wear contact lenses? Then it's a good idea to wear also a medical identification bracelet saying so. Should you lie unconscious for hours after an accident, the lenses can seriously injure the corneas.

Teen-age precocity: The 49th state flag—Alaska's—was designed by a 13-year-old orphan, Benny Benson.

Quotable notables: "About a third of my cases are suffering from no clinically definable neurosis, but from the senselessness and emptiness of life." —Dr. Carl Jung.

Why doesn't man have a tail? Aristotle, the Greek father of science, explained it was because nature thought man deserved a soft cushion to sit on. He also observed that man has larger feet in proportion to his size than any other animal. He explained the fact that man has more hair on his front and four-legged animals more on their backs because of nature's desire to protect the most exposed parts.

Know your language: Our phrase "forlorn hope" results from a slight mistranslation of the Dutch term "verloren hoop," which means "lost, troop" not "lost hope." It referred to a group of soldiers given a desperate mission likely to result in all their deaths.

Folklore: Skunk grease will cure lameness. Further bad luck will follow unless the clocks in a home are stopped when a member of the family dies. To prevent a bad dream from coming true tell it to someone after—but not before—breakfast. A tingling left ear means someone is speaking ill of you, but if you pinch the ear that person will bite his tongue.

It was Goethe who observed, "Being brilliant is no great feat if you respect nothing."

PUMPS

Do you need a replacement pump or a pump for your new well? Why not try a WEBTROL Stainless Steel Pump, Complete range of sizes from 1/4 H.P. thru 50 H.P. We also have the exclusive WEBTROL Tank-E-Liminator for water storage in the ground.

Modest Reorganization Is Sought for Congress

WASHINGTON (AP) — Supporters of a modest congressional reorganization bill are planning to dust it off in about a week in a new drive to move it out of the House Rules Committee.

The measure has been tied up in committee for two months although it avoids such controversies as changing the seniority system.

The liveliest issue to be settled is whether the House should scrap a long-standing custom and join the Senate in permitting television and radio coverage of its committee hearings.

A rules subcommittee that drafted the measure tied on the issue of electronic coverage, so the proposal lost. Proponents have promised to renew their drive when the parent committee considers whether to send the measure to the House for a vote.

Subcommittee Chairman B. F. Sisk, D-Calif., said he has been told this may come within the next week or so. The conservative chairman of the Rules Committee, Rep. William M. Colmer, D-Miss., told a reporter only the press of urgent business had prevented the committee from acting earlier on the reorganization measure.

Essentially an effort to update housekeeping practices and facilities, the draft measure would

provide for more extensive use of electronic data processing to expedite handling of Congress' mountains of paper work.

It would establish a joint Senate-House committee on data processing to supervise a computer bank. The equipment would serve not only the two branches of Congress and their committees, but also the Library of Congress and the General Accounting Office, the lawmakers' own fiscal watchdog agency.

The measure would make no changes in the present committee jurisdictions. It took no action, for example, on a long-controversial proposal to divide the House Education and Labor Committee into two specialized panels.

Castro Claims Invasion

MIAMI (AP) — Prime Minister Fidel Castro says an invasion force from the United States has landed in Cuba and that six persons have been killed in fighting.

Castro said in a communiqué broadcast Sunday by Havana Radio the armed men landed on Cuba's east coast Friday—the ninth anniversary of the abortive, U.S.-supported Bay of Pigs invasion.

A group of mercenaries coming from the United States, equipped with modern automatic arms of the Yankee Army, landed near the Yumuri River 14 miles east of the city of Baracoa Friday, April 17, at dawn, he said.

Baracoa is in Oriente Province, near the eastern tip of Cuba.

Castro said his troops and border patrol captured two prisoners soon after the landing, "seizing two automatic rifles, 2,000 bullets, and numerous packages of plastic explosives."

A second battle occurred Saturday, Castro said, and "four courageous combatants of the revolution lost their lives and two were gravely wounded."

"During the action, two mercenaries were killed and a third one was taken prisoner," he said.

"A hunt for the mercenaries continues."

Militant exile groups in Miami remained quiet after Castro's speech, but one such organization—Alpha 66—said "an expedition like this was on our program."

"We can neither affirm nor deny at this time that it was our force that was involved in the battle. We are waiting for news," said Andre Nazario Sargeen, secretary-general of Alpha 66.

The organization's military commander, Vicente Mendez, was reportedly by associates to be out of the city.

His wife, Dulce Maria, was at the Alpha 66 headquarters late Sunday, crying softly as she awaited the news from Cuba.

He succeeds Nick Gray of Maryville.

The delegates suggested that the merit system should be extended to the state revenue department, the Missouri Public Service Commission and Department of Liquor Control.

College Professor To Run for Office

SPRINGFIELD, Mo. (AP) — John H. Simmons, 32, a Drury College art professor, says he will seek the Republican nomination for Congress from Missouri's 7th District.

Simmons said Sunday he will challenge Rep. Durward G. Hall, the state's only Republican congressman, who is in his fifth term.

The professor said he felt that Hall's views do not agree with those of the district's voters.

Blackmun Frets Over Capital Punishment Quote

ROCHESTER, Minn. (AP) — Judge Harry A. Blackmun, a third-round choice for the Supreme Court's empty seat, acknowledges his personal views against the death penalty may toss the Senate into a new tempest.

"This will be a matter of grave concern, I suppose, to some senators," the soft-voiced judge said.

Blackmun, in a private weekend interview with The Associated Press, said he would not be surprised if someday, perhaps even this year, the court might overturn the death penalty as unconstitutionally cruel.

But the judge, who has upheld death sentences legally even while disagreeing with them personally in lower court decisions, did not indicate which way he might sway when the crucial issue comes before the nation's highest court.

Blackmun is believed to loom as the tie-breaking vote on a Supreme Court thought to be knotted 4-4 on the death question.

The money was all she had left from the \$3,000 she won last month in Tokyo.

EDITORIALS

Crackdown Comes Late

What may surprise many people is not that the state of Ohio and Michigan and the province of Ontario have banned commercial fishing in Lake Erie for an indefinite period because of mercury contamination, but that there was any fishing to ban.

Despite the claims of some doomsayers, the lake is not dead; it is "merely" deathly ill.

Until the ban, Lake Erie was producing some 50 million pounds of fish a year, nearly half the total caught in all five of the Great Lakes. But like the rapacious whalers of the oceans, who are ranging farther and farther afield to catch smaller and smaller whales, Lake Erie fishermen have been netting more and more "trash" fish. The more desirable clean-water species, such as whitefish, walleye, lake herring and blue pike, have either disappeared or declined drastically in the past couple of decades.

The mercury crisis has thus only accomplished in one fell stroke the same end result as would eventually have occurred anyway — the utter ruination of Lake Erie for any purpose other than that of a sewer or ship highway.

And this in the long run may be a good thing — though many people will suffer in the short run. For we too easily get used to and accept the gradual deterioration of the environment; it takes a sudden blight like a killer smog or an oil slick or a fishing ban to provoke us into at least the semblance of action.

Washington Merry-Go-Round

Ethics Champion a Freeloader

WASHINGTON — Earnest, young Senator Birch Bayh, D-Ind., who raised the issue of Judge Clement Haynsworth's ethical foginess, gets a little foggy himself when you ask him who pays the bills for his annual winter vacations on Miami Beach's gold coast.

The records of the swank Hilton Plaza hotel show that the Senator, his wife and 14-year-old son occupied two oceanfront rooms at the height of the winter season, December 25 to January 2, compliments of the management.

Indeed, every winter since he entered the Senate in 1963, the Bayhs have taken a free vacation in the sun, staying at the Hilton Plaza or Eden Roc, both winter hangouts for the mink-and-sable crowd.

The Hilton Plaza's private records show not only that the clean-cut Hoosier Senator got his \$60-a-day rooms free but that the hotel also absorbed the \$209 bill he ran up for incidental expenses. These included a number of meals, phone calls, use of the rooftop solarium and a \$30 item the Senator says he can't remember picking up at the hotel men's shop.

Yet he is the same Birch Bayh who challenged Haynsworth's ethics, knocked him off the Supreme Court, and then led the Senate fight against his replacement, Judge G. Harrold Carswell. Bayh was supported in both battles by the labor unions, including the powerful Teamsters Union.

—Teamsters Link—

It may be merely a coincidence that the Hilton

Looking Backward

NINETY-FIVE YEARS AGO

Yesterday afternoon the winds came moaning and swirling through Sedalia's streets, scaring us all for we had not forgotten Houstonia. The west half of the roof of the rendering department of Mr. W. Bloess' pork house was blown off, falling within the bounds of the lumber yard on Benton street near the Ives House. Not a shingle was broken in the fall. The roof is considerably lower than that of the main building, was put on at the same time and of the same material.

FORTY YEARS AGO

Miss Marilyn Kipping entertained at the home of her parents, Mr. and Mrs. Leo Kipping, 1008 West Third street, the following friends: Latalee Cox, Jane Collins, Helen Harris, Dorothy Gillespie, Mildred Huckins, Naomi Fisher, Katherine Stevens, Mary Eisenhart, Virginia Sappington, Wilma Meinsen, Ralph Cross, Mary Eisenhart, Virginia Sappington, Wilma Meinsen, Ralph Cross, Howard Templeton, Russell VanArsdale, Billy Kurtz, Fletcher Carter, Richard Heerman, Billy Seelen, Eldon Danforth, Raymond Wilcox, Donald Sutton, Guy Miller, Donald Merriott and Robert Iten.

TWENTY-FIVE YEARS AGO

Prize winners of the Brotherhood Week Essay Contest sponsored by the National Conference of Christians and Jews were on the Sedalia Kiwanis club program. They were: Almeda Albertson, Smith-Cotton High School junior; Helen Donahoe, Sacred Heart high school junior; and William D. Evans, Smith-Cotton High School senior. The essays had as their background theme the abolition of religious intolerance and racial prejudice in promoting world peace.

Thought for Today

Save us, we beseech thee, O Lord! O Lord, we beseech thee, give us success! — Psalms 118:25.

I cannot give you a formula for success, but I can give you the formula for failure — which is: Try to please everybody. — Herbert Bayard Swope.

Water That "Burned"

Alexander the Great, in his travels through the Persian Gulf area and Mesopotamia, heard tales of a kind of "water" that seeped from the ground and burned. He tested the story by pouring the strange liquid over a boy, then igniting him with a torch. Today, the area's chief product is petroleum.

Solutions for Broken
TV Tray Clip Problem

By POLLY CRAMER

DEAR POLLY—Like Mrs. S. T., I had broken clips on my TV tray tables. I bought used trays (with metal clips) from a local second-hand store. My husband removed the clips from these old trays and riveted them to ours, which had plastic clips originally. These metal ones should last indefinitely. If need be, they can easily be spray-painted to match the trays—ours were both black, so this was not necessary.—CLARA

DEAR POLLY—Mrs. S. T. might find replacement clips for TV tray tables in what seems a very unlikely source—an electronic supply house. She could use resistor mounting clips, which are made to accommodate four sizes of Type 99 resistors. She could select the clips which best fit her trays. The clips may be bolted on or, if more convenient, she might try using an epoxy cement.—WILLIAM

Polly's Problem

DEAR POLLY—I have a 100 per cent virgin wool sweater that scratches so badly I cannot wear it, even with a blouse underneath. Washing did not help. Any suggestions?—L. K.

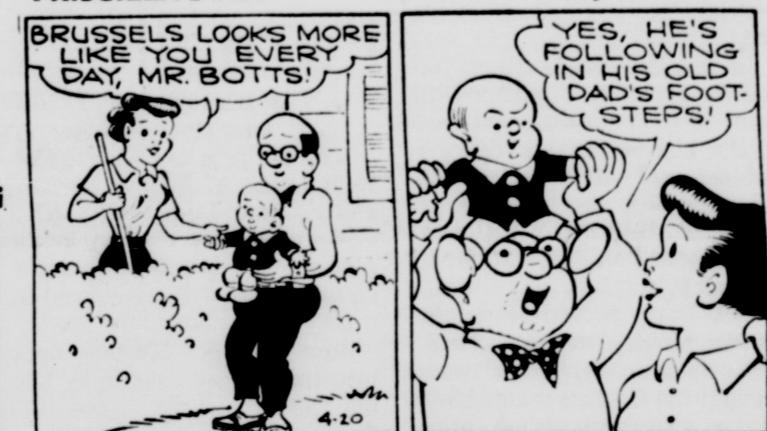

DEAR POLLY—First, I would like to thank the reader for the suggestion about putting the edge of a shoe bag between the mattress and springs to hold articles which would not go in a night-table drawer. Now I hope she will find my Pointer useful.

I have found that, as my family grows older, it becomes more and more difficult to have everyone eat dinner together. It was impossible to clean up the kitchen, as I could not wash the pans while I was trying to keep food warm for some late-comer. I finally came up with the idea of filling a TV tray and putting it in the oven. Now I can go ahead, do the dishes and store the leftovers. When that late-comer finally arrives, he turns on the oven for a few minutes and his dinner is ready.—WANDA

DEAR GIRLS—Yvette said to never send delicate cookies nor moist breads and cakes, as they tend to mold during the long trip to Vietnam. Also, she reminded us about being sure baked things are thoroughly cooled before wrapping. She uses permanent ink for addressing and marks the package "Perishable Food." She finds SAM mail is just about as quick and is cheaper than air mail.

A pamphlet may be obtained from the post office that gives the rates and sizes for PAL and SAM packages and compares them with air mail, so you can select the best for you. This leaflet also stresses the importance of including the full, five-digit, Armed Forces Post Office number and a return address.—POLLY

Extra Inning Game Goes to Royals, 4-1

ANAHEIM (AP) — Jim Rooker years to be a starter and Kansas City Manager Charlie Metro may be just the guy to satisfy that ambition.

"He very definitely could be a starter for us," Metro said Sunday after watching Rooker pitch four solid innings of relief to gain credit for the Royals' 4-1 triumph over the California Angels in 13 innings.

"You know," the Kansas City manager continued, "he wasn't exactly overpowering last year but he's had two fine outings in a row — and that's better for him than all the talking in the world. We've been bringing him along slowly and I think it's beginning to pay off."

Rooker, a stocky 26-year-old, gave up four hits and did not allow a run while surviving several tight situations.

He was a starter for the Royals last season and wound up with an embarrassing 4-16 record. But in his last two relief appearances, both against the Angels, he has not permitted a run in six innings.

"Naturally, I'd prefer to start," Rooker confided after posting his first win of the season. "But if I can do the job in the bullpen I think I would be happy out there. Just as long as they keep using me."

Kansas City, winning the rubber game of a three-game set with the Angels, now moves to Oakland for a game tonight while California hosts Milwaukee.

Rudy May will bid for his second straight victory without a loss for California when he opposes the Brewers' Gene Brauer, 0-2.

Rooker entered a 1-1 game in the 10th inning when the Angels put runners at first and second with none out. But the Royal reliever promptly set down the side.

In the 11th, Chico Ruiz looped

Turns 6.76 Quarter

ROCKINGHAM, N.C. (AP) — John Wiebe of Newton, Kan., won the Class AA fuel dragster division and \$10,000 Sunday at the first annual pro-am Grand American championship at Rockingham International Dragway.

Wiebe had an elapsed time of 6.76 seconds on the quarter-mile strip and hit a top speed of 216.86 miles an hour in his Chrysler-powered dragster.

Gary Kimball of Independence, Mo., took the \$200 top prize in the GT One class. His top speed was 128.38 mph.

a double to right when outfielder George Spriggs lost the ball in the sun. Joe Azcue then singled sharply to right but Spriggs atoned for his misplay by throwing Ruiz out at the plate.

After the Royals had broken through for three runs against Mel Queen in the 13th when the Angels tried to battle back, Alex Johnson and Jay Johnstone drilled back-to-back singles but Rooker again met the challenge by getting Roger Repoz on a pop fly before Ruiz hit into a game-ending double play.

Andy Messersmith hurled eight strong innings for California, allowing only two hits, and bounced a one-out double to left in the eighth. Messersmith, however, pulled a muscle in his shoulder sliding into second on base.

He refused to leave the game and scored the go-ahead run when Jim Fregosi, who had four hits in a losing effort, blooped a two-out single to right off Dick Drago.

The Royals forced overtime when Messersmith walked Spriggs to lead off the ninth.

Spriggs took second on an infield out and, with Ken Tatum pitching for the Angels, Amos Otis hit a ground ball to Fregosi who threw it into the Royals'

dugout, allowing Spriggs to score the tying run.

Kansas City won it in the 13th when Ellie Rodriguez led off with a walk and Queen hit Rooker with a pitch. Spriggs beat out a bunt to load the bases and Rodriguez scored the first run on Azcue's passed ball. Base hits by Otis and Bob Oliver delivered two insurance markers.

Cincy Ace Gets Third Of Season

By HAL BOCK

Associated Press Sports Writer

When do you like your no-hitters broken up—early or late?

The National League had them both ways Sunday—Wayne Simpson losing his chance in the first inning and Tom Griffin letting the suspense build a bit before losing his in the seventh.

Simpson, Cincinnati's sensation rookie, one-hitted San Francisco 6-0 Sunday while Houston's Griffin handcuffed San Diego on one hit, 5-1.

Elsewhere, Los Angeles battered Atlanta 10-1 with the game enlivened by a short fist fight between Larry Jaster of the Braves and Willie Davis of the Dodgers, and Philadelphia split a doubleheader with New York, winning 3-2 in 10 innings before losing 10-2. Montreal at Chicago and St. Louis at Pittsburgh were both postponed by rain.

In the American League, Minnesota stopped Oakland 6-3, Kansas City went 13 innings to top California 4-1 and Baltimore split a pair with New York, winning 4-3 before losing 8-5. Doubleheaders with Chicago at Milwaukee and Washington at Cleveland as well as Boston's single game at Detroit were rained out.

Simpson, who has created quite a stir with two shutouts and three straight victories, surrendered a two out first inning double to Ken Henderson and nothing else. He struck out nine but experienced some control problems, walking seven.

Ten days ago, in his major league debut, the 21-year-old right-hander shut out the Dodgers on two hits and in 25 innings pitched, he has allowed just one run.

Simpson got all the offensive support he needed from Tony Perez, who drove in four runs with two singles and his sixth homer of the young season.

Houston's Griffin gave up a first inning run to San Diego on a walk, a stolen base and two ground outs, and then held the Padres hitless until Clarence Gaston doubled with one out in the seventh. Ironically, Gaston was the victim of a diving catch by Jimmy Wynn in the fourth with the shot being turned into a double play and preserving Griffin's hitless string.

"After Jimmy made that play," said Griffin, "it ran through my mind the way it happens when guys pitch no-hitters. There's got to be one good defensive play. At least it always seems that way. I thought maybe this was mine," said Griffin.

"Closest I've ever come?"

Barber Cops N. Orleans Tournament

NEW ORLEANS (AP) — Veteran Miller Barber ran in a pressure-packed, 12-foot birdie putt on the second hole of a sudden-death playoff today and won the \$25,000 first prize in the Greater New Orleans Open Golf Tournament.

Barber defeated 44-year-old Howie Johnson and New Zealand left hander Bob Charles, each of whom parred both holes. Charles and Johnson each received \$11,575.

The sudden death playoff was forced when the three finished the regulation 72 holes at 278, ten under par on the Lakewood Country Club course, in Sunday's weather-plagued final round.

There wasn't enough daylight left to begin the playoff and it was held over until Monday morning.

The playoff trio had only a one-stroke edge.

Lou Graham, who had a shot at first place until the final crucial holes, finished one back at 279.

Third round leader George Archer entered Sunday's play 11 strokes under par but slipped to a 76 and finished fifth.

Grouped in sixth place at 282 were Masters champion Billy Casper, Jim Colbert, Dave Stockton, Gary Player and Rod Cur.

Neither Johnson, Barber nor Charles have won on the tour this year, but they represent 36 years of combined experience. Barber has won \$40,341 this year, Johnson \$29,436 and Charles \$18,088.

Charles' five-under-par 67 Sunday was the best of the day and his best of the tournament. Johnson made the playoff with a 71 and Barber with a 70.

Barber missed a 12-foot eagle putt on the 16th and an eight-foot birdie try on the 17th.

Johnson led by two strokes at one point Sunday and held a one-stroke advantage going to the 16th. But he hit a bad drive, wound up in a trap on his second shot and missed a 12-foot putt for par.

Charles, meanwhile, was near flawless with his shot placements and had birdies of 20, 40 and 15 feet on the back nine.

said Griffin, repeating a newsman's question. "Oh, yeah, sure, it may be the closest I ever come."

Wes Parker clouted a two-run homer and Ted Sizemore cracked three straight hits piling a 14-1 Los Angeles attack that carried the Dodgers past Atlanta. Alan Foster rode the heavy hitting to his second victory in three decisions.

The battle between Jaster and Davis broke out in the eighth inning.

Davis was backed away from the plate with a close two-strike pitch and then bunted down the first base line. As the ball rolled foul for the third strike out, Davis exchanged words with Jaster and then punches.

After taking one punch, Davis sprinted away from Jaster and into the Dodger dugout as both benches emptied. "I accused him of throwing at me deliberately," said Davis. "He hit me on the right cheek and since I had it broke before, I didn't want it hit again, so I ran." Jaster denied throwing at Davis. "When he ran," said the pitcher, "I just gave up."

Bengals Win 2 Friday

The Smith-Cotton Tigers upped their season's marks in the Central Missouri Conference and the overall standings to 9-4 and 5-1 respectively Friday with two wins over Mexico.

Terry Hudson hurled a two-hitter against the Bulldogs, while Hudson himself aided the Tigers' cause by going two-for-three at the plate in the 5-1 win.

In the second game, the Tigers pounded out ten hits and scored 14 runs, while downing the Bulldogs, 14-1.

Bob Pledge took the win for S-C in that second game.

Steve Gerlecz was the power-hitter for the Tigers in the second contest. He drove in three runs, scored three times and went two-for-four at the plate.

Terry Hudson also had two hits in the second contest as did Randy Kidwell and pitcher Bob Pledge.

The next action for the Tigers will be Thursday when the Missouri State High School Activities Association's sub-district play will open at Liberty Park Stadium.

Seemingly a Disagreement

The Blues and Penguins go at each other in a free-for-all fight as referee John D'Amico tries to pull players apart. The action took place in the first period of the first western division playoff game between the two

clubs, Sunday in St. Louis. No one was declared the winner in the above action, but the Blues took a 1-0 lead in the series by whipping Pittsburgh, 3-1. (UPI)

Lawrence, Kan. (AP) — The Midwest's annual three-stop spring track circus folded its tent here Saturday and headed for Des Moines where the 61st Drake Relays opening Thursday will complete the circuit.

For the college relay teams, it's a third and final chance for victory. But for a trio of college sprinters, their big chance this spring is gone.

Karl Salb, the University of Kansas shot putter, narrowly failed in the 43rd Kansas Relays in his bid for a first triumph over world premier shot man Randy Matson of Houston, Tex. Matson beat Salb, 67 feet, 9 1/2 inches to 66-4, in the featured open shot.

Ivory Crockett of Southern Illinois and Mel Gray of Missouri, two of the nation's top collegiate sprinters, didn't even offer Olympic John Carlos a challenge.

Terry Hudson also had two hits in the second contest as did Randy Kidwell and pitcher Bob Pledge.

The next action for the Tigers will be Thursday when the Missouri State High School Activities Association's sub-district play will open at Liberty Park Stadium.

By DICK COUCH

Associated Press Sports Writer

The California Angels figured they'd found a good samaritan in the Kansas City outfield ... only to discover that charity ends at home for George Spriggs.

California and Kansas City were locked in a 1-1 standoff Sunday when Spriggs, the Royals' right fielder, lost Chicago Ruiz' 11th inning fly ball in the sun. It fell for a double, and when Joe Azcue followed with a single to right Ruiz confidently sprinted home with the apparent winning run.

But Spriggs nailed him at the plate with a perfect throw, killing the threat, and then contributed a key bunt single as Kansas City scored three runs in the 13th for a 4-1 victory over the Angels.

Horace Clarke ripped five of New York's 17 hits in the nightcap at Baltimore and the Yanks withstood ninth inning homers by Andy Etchebarren and Chico Salmon. Pete Ward's two-run triple was the Yanks' only extra base hit.

Mike Cuellar flipped a four-hitter in the first game and Dave Johnson drove in three Baltimore runs with a homer and a single.

Brant Alyea delivered four runs for the Twins at Oakland with a double and his fourth homer. Jim Perry checked the A's on six hits on the way to his third victory without a loss. Reggie Jackson homered for the losers.

In the National League action, the New York Yankees divided a doubleheader with Baltimore, winning the nightcap 8-5 after a 4-3 setback, and Minnesota downed Oakland 6-3. Bad weather in the Midwest forced postponement of the Chicago-Milwaukee and Washington-Cleveland twin bills and the Boston-Detroit game.

In the National League, the New York Mets bowed to Philadelphia 3-2 in 10 innings before pasting the Phillies 10-2 for a doubleheader split; Los Angeles trounced Atlanta 10-1; Houston topped San Diego 5-1 and Cincinnati trimmed San Francisco 6-0.

The Royals broke the extra inning deadlock at California on a passed ball by catcher Azcue in the 13th after a walk, a hit batsman and Spriggs' safe bunt

relay team to victory and placed third in the 3,000-meter steeplechase. He edged Bennett 11 votes to 9 to win the Don Pierce Award, named for the late Kansas sports publicist.

Others getting votes included:

Roger Colglazier, who anchored surprising Abilene Christian to victories in the 880 and mile relays in the university division.

Thurman Boggess, who ran on Prairie View A&M's three winning college division relays teams — 440, 880 and mile. Fort

Hays won the other two college relays.

Kansas took the university distance medley for its second relays victory, while Kansas State captured the two-mile relay and Oklahoma State the 440.

Besides Carlos' tying the 100 mark, Rex Maddaford, a New Zealander running for Eastern New Mexico broke the open 3-mile mark with a time of 13:38.3. Toli Welihozky of the Rutgers Track Club smashed the hammer throw record with a heave of 183-11 and Bennett broke the decathlon mark.

Kansas State's two-mile relay team, anchored by Ken Swenson, will go after the only relay sweep of the Texas-Kansas-Drake circuit this spring. The Wildcats won at Texas in 7:23.5 and here in 7:31.6.

Laird Sees Danger In Weapons Putoff

NEW YORK (AP) — Secretary of Defense Melvin R. Laird said today "we are literally at the edge of prudent risk" in postponing decisions on major new offensive nuclear weapons to give U.S.-Russian arms limitation talks maximum chance for success.

Claiming a steadily rising Russian missile threat, Laird said that "if the Soviet strategic offensive buildup continues, the risk to our nation will become too great to sustain without major offsetting actions."

In a major speech prepared for the 70th annual meeting of the Associated Press, the Pentagon chief expressed hope for success at the strategic arms limitation talks—SALT—which have just opened a hard-bargaining phase in Vienna.

But Laird rejected arguments that the United States should, at the outset of the negotiations, unilaterally hold up impending deployment of multiple independently targetable warhead missiles (MIRVs) and expansion of the Safeguard missile (ABM) system.

"The place to resolve these issues is at the conference table with the Soviets," he said.

"Let us try to find out at the conference table the meaning of the Soviet Union's increased weapon deployments and let us conduct these important negotiations with full recognition of these continuing Soviet deployments."

Laird said the risks in deferring "hard decisions" on whether to go ahead with advanced missiles and bombers are acceptable only if the United States proceeds with the long-planned MIRV deployment and what he called a "minimal addition" to the Safeguard system, as proposed this year by the Nixon administration.

Disputing critics who contend MIRV and ABM systems spur the arms race, Laird asserted these weapons are essential to preserve the U.S. nuclear force that deters Russian attack—the ABM by saving land-based U.S. missiles and bombers from surprise knockout and the MIRV by assuring that land-based and submarine-launched missiles can overwhelm formidable Soviet defenses.

People In The News

ROME (AP) — Pope Paul VI says the Roman Catholic and Orthodox churches should merge into "one single faith and in one single church for all Christians."

The pontiff expressed this view Sunday during his sabbath blessing to an audience of thousands in St. Peter's Square. He cautioned, however:

"We cannot think to re-establish a sincere union of the Roman Catholic and the Orthodox churches at the cost of damaging the Oriental Catholic churches or through doubtful ways of intercommunication that put aside the demands of the true doctrine and could cause ilusions and confusions."

Eastern churches include the Orthodox, headed by Patriarch Athanagoras of Istanbul, and a grouping of the Nestorian, Armenian, Coptic, Ethiopian and Syrian Jacobite.

BLUFFTON, Ohio (AP) — Community Phyllis Diller left Community Hospital here Sunday after recuperating from surgery performed earlier in the week.

Miss Diller, a native of Lima, Ohio, came here for the operation because she knew one of the surgeons at the hospital. The operation was described by a hospital spokesman as "remedial surgery of a female nature."

NEW YORK (AP) — Sen. Harry Fong and Mayor Carl Stokes of Cleveland have won Horatio Alger awards for persons of humble origin who have made good.

They were among 10 winners selected by the Horatio Alger Awards Committee of the American Schools and Colleges Association. All will receive bronze plaques at a dinner May 6.

Winners are chosen by balloting at 500 colleges and universities. Former winners include Presidents Dwight D. Eisenhower and Herbert Hoover.

BOSTON (AP) — Richard Cardinal Cushing, archbishop of Boston, made his first public appearance Sunday since his hospitalization a month ago for an illness described as a "resistant infection."

He celebrated Mass in the city's North End, and told the congregation that the so-called "crisis" in the finances of Catholic schools is exaggerated beyond perspective.

"What we are really experiencing is a period of decision, a time when we must evaluate our resources and act in a manner consistent with them."

The challenge to parochial schools "will be resolved and our schools will continue," he said.

PLUS INCREASED EXTRA CASH FOR CANCER, HEART ATTACK OR STROKE

REGARDLESS OF YOUR AGE OR THE SIZE OF YOUR FAMILY YOU CAN ENROLL NOW FOR ONLY \$1.00

**During this Limited Enrollment Period,
you can enroll yourself and all eligible
members of your family simply by
mailing the Enrollment Form below
with \$1. There's nothing else to do—
but you must mail your Enrollment no
later than Midnight, April 26, 1970!**

**Think of it. Now, with a stroke of your pen, you
can have tax-free, expense-free extra cash paid
direct to you when a sudden accident or unexpected
illness hospitalizes you or a covered member of your
family! And you may enroll during this Limited
Enrollment Period without having to see a company
representative and without any red tape whatsoever.
All you need do is mail the Enrollment Form below
together with just \$1 before the expiration date. It's
that easy!**

Why You Need Extra Cash

In Addition To Ordinary Hospital Insurance
Anyone who has been in the hospital recently knows
ordinary hospital insurance—even Medicare—simply
will not cover everything. You have to pay many
“extras” out of your own pocket—and it can add up
to hundreds of dollars in a frighteningly short time.

But even if your ordinary hospital insurance covers
most of your medical and hospital bills, what
about the bills that keep piling up at home?

**If you, as husband, father and breadwinner are
suddenly hospitalized, your income stops, your expenses
go up. Even if you have some kind of “salary
insurance” it probably won't come close to replacing
your full-time pay.**

**If your wife is suddenly hospitalized, who will
look after the family, do the laundry, the marketing,
the cleaning? You may have to take time off from
your job—or hire full-time domestic help—to take
care of things at home.**

**If one of your children is suddenly hospitalized,
you will certainly spare no expense. You wouldn't
even think of the cost.**

**If you're over 65 and are suddenly hospitalized,
Medicare, fine as it is, won't pay all of your hospital
expenses or any household expenses. Most senior
citizens won't want to use up savings it may have
taken a lifetime to accumulate... they want to retain
their independence and not become a “burden” to
their children or community.**

**Without “extra cash” protection, a hospital emergency
may leave you with savings gone, debts you
can't pay, peace of mind shattered—even your recovery
can be seriously delayed by money worries!**

How The Plan Protects You And Your Family
Now, with the unique “extra cash” protection of The
Doctors Hospital Plan you can avoid these worries
because you can be assured of extra cash income
when you or any covered member of your family
goes to the hospital. No matter how large your family,
no matter what your age or occupation and without
any qualifications whatsoever, you can choose
any of the four low-cost plans shown at right to meet
your family's special needs.

In addition to the “extra cash” hospital benefits,
you get all these valuable “extra” features:

19 Important Questions Answered ABOUT THE NEW DOCTORS HOSPITAL PLAN

1. What is The Doctors Hospital Plan?

The Doctors Hospital Plan is a brand-new, low-cost
health protection plan—that pays extra cash direct to you
when a covered accident or illness hospitalizes you or a
covered member of your family.

2. Why do I need The Doctors Hospital Plan in addition to my regular insurance?

Probably your present hospital insurance won't cover
all your hospital expenses, but even if it does, you will
still need help to cover all your household expenses when
you are hospitalized.

3. Can I collect even if I carry other health insurance?

Yes, The Doctors Hospital Plan pays you in addition to
any health insurance you carry, whether individual or
group—even in addition to Medicare! And all your benefits
are tax-free! Of course, you may have only one like
policy with Physicians Mutual.

4. Is there a lot of red tape to qualify?

None at all. Your only qualification is to complete and
mail your Enrollment Form by the deadline date shown.

5. Which plan should I choose?

You may choose any of four low-cost plans—you can
actually select the exact plan that suits you best!

If yours is a young, growing family, we recommend
the ALL-FAMILY PLAN. You and your wife are covered
at once for accidents, for new sicknesses after 30
days, and for maternity benefits after 10 months. All
your children (and future additions) between 3 months
and under 21 are included, at no extra cost, as long as
they are unmarried and live at home.

If you are the only parent living with your children,
we suggest the ONE-PARENT FAMILY PLAN. This
covers you and all unmarried children living at home
between 3 months of age and under 21.

If you have no children as yet, or if you have children
who are grown and no longer dependent on you, you will
want the HUSBAND-WIFE PLAN.

Or, if you are living by yourself, choose the INDIVIDUAL
PLAN.

6. If I become hospitalized, when do my benefits begin?

On all plans, your cash benefits are paid from the
very first day of hospital confinement, for as long
and for as many times—as you are hospitalized, up to
the maximum (Aggregate of Benefits) of the plan you choose.

7. How much can I be paid?

Each plan has its own “Aggregate of Benefits,” what we
call the maximum.

**Your “Health-Bank Account”
Grows Each Month**

Here's a wonderful benefit, no matter which plan
you choose—almost like having an extra “Bank Account.” When your policy is issued, your insurance
provides up to \$10,000, \$7,500, or \$5,000—depending
upon the plan you choose. This is your “Health-Bank
Account.”

Then, every month your policy is in force, a sum
equal to your regular monthly premium (including
your first month) is actually added to your maximum! When you have claims, your benefits are sub-
tracted from your “account.” It's much like putting
money in and taking it out of a bank account.

Enjoy Life-Long Security

For as long as you live and continue to pay your
premiums, we will never cancel or refuse to renew
your policy for health reasons—and we guarantee
that we will never cancel, modify or terminate your
policy unless we decline renewal or modify all policies
of this type in your entire state or until the maximum
(Aggregate of Benefits) of your policy has been paid.

**You May Actually Come Out
“Money Ahead”**

Because The Doctors Hospital Plan pays you in
addition to any other company's health insurance you
carry—individual, group or even Medicare—and
because all your extra cash benefits are tax-free, you
may leave the hospital many dollars ahead... money
you don't have to account for to anyone. Of course,
you may have only one like policy with Physicians
Mutual.

Enroll For Only \$1

Regardless of your age, the size of your family, or the
plan you select, you get your first month for only \$1.00.
If you choose the All-Family Plan—all your eligible
children (including future additions) are included at
no extra cost. (See box at right for low rates.)

**Extra Cash Protection
At Surprisingly Low Cost**

How can a hospital plan offer so much for so little?
The answer is simple: We have lower total sales
costs. The Doctors Hospital Plan is a mass enrollment
plan. All business is conducted between you and
the company by mail. No salesmen will call. It
all adds up to real savings we share with you by giving
you high quality protection at low cost.

**Offered By Physicians Mutual
“The Doctors Company”!**

Your policy is backed by the resources, integrity and
reputation of the **Physicians Mutual Insurance Company**, “the doctors company,” specializing in health
and accident protection for physicians, surgeons and
dentists for more than 65 years. Dunne's Insurance
Reports, one of the leading insurance industry authorities
in the nation, gives Physicians Mutual its highest policyholders' rating of “A Plus (Excellent).” Serving hundreds of thousands of policyholders throughout the United States direct by mail,
Physicians Mutual has its headquarters in Omaha,

CHOOSE THE PLAN THAT SUITS YOU BEST

**ALL-FAMILY PLAN
\$10,000 MAXIMUM**

**PAYS YOU: \$100 weekly
(\$14.28 daily) extra cash
when you are hospitalized. \$75 weekly (\$10.71
daily) when your wife is hospitalized. \$50 weekly
(\$7.14 daily) for each eligible child hospitalized.**

If you're a young, growing family, we recommend
the All-Family Plan. All your children (including
future additions) between 3 months of age and under 21
are included at no extra cost as long as they are
unmarried and live at home.

**You pay only \$7.95 a month and you
get your first month for only \$1.00!**

**ONE-PARENT
FAMILY PLAN
\$7,500 MAXIMUM**

**PAYS YOU: \$100 weekly
(\$14.28 daily) extra cash when you are hospitalized.
\$50 weekly (\$7.14 daily) for each eligible child hospitalized.**

If you are the only parent living with your children,
we suggest the One-Parent Family Plan. This plan has been
tailored to help meet your particular needs. It covers you and all unmarried children living
at home between 3 months of age and under 21.

**You pay only \$5.95 a month and you
get your first month for only \$1.00!**

**HUSBAND-WIFE PLAN
\$7,500 MAXIMUM**

**PAYS YOU: \$100 weekly
(\$14.28 daily) extra cash
when you are hospitalized. \$75 weekly (\$10.71
daily) when your wife is hospitalized.**

If you have no children, or if your children are
grown and no longer dependent on you, you will
want the Husband-Wife Plan.

**You pay only \$6.45 a month and you
get your first month for only \$1.00!**

**INDIVIDUAL PLAN
\$5,000 MAXIMUM**

**PAYS YOU: \$100 weekly
(\$14.28 daily) extra cash
when you are hospitalized.**

If you are living by yourself, or if you wish to
cover only yourself or one family member, choose
the Individual Plan.

**You pay only \$3.95 monthly and you
get your first month for only \$1.00!**

SPECIAL EXTRA BENEFITS!

Whichever plan you choose, you get:
50% INCREASE IN YOUR CASH BENEFITS... if you or any member of your family is hospitalized for cancer (including Leukemia and Hodgkin's Disease), heart attack (acute myocardial infarction, coronary thrombosis and coronary occlusion), or stroke (apoplexy).

If you choose the All-Family Plan or the Husband-Wife Plan, you get in addition:

DOUBLE CASH BENEFITS if both you and
your wife are injured and hospitalized at the same time. You get twice the amount—\$350 A WEEK!

Important: Here is another real “plus”—if you
have been told that anyone in your family is “uninsurable”. Even if one of your covered family
members has suffered from chronic ailments in the
past—ailments that come back again and again, or are
likely to recur—you will be covered for these
pre-existing conditions after your policy has been
in force for one year!

IF YOU ARE OVER 65

Even though Medicare will pay most of your hospital
expenses it will not cover all of your needs. During this limited enrollment, you can get the extra
cash protection needed during the high-risk senior
years without any qualifications just by using the
form below!

It's a fact that people over 65 go to hospitals more often and have larger hospital bills. That's exactly why they need extra cash protection! And that's why some hospital plans won't accept them or charge rates beyond their means. But The Doctors Hospital Plan not only accepts you regardless of age, it gives you easy-to-carry protection that is within your means. If you are over 65 now, or when you become 65, the following modest monthly additional rate applies:

Female on All-Family or Husband-Wife Plan \$2.50

Female on One-Parent Family or Individual Plan 3.50

Male on any Plan 3.50

son whatever you change your mind you may
return your policy within 10 days and we will
promptly refund your dollar.

IMPORTANT: We can only accept your enrollment
if it is postmarked on or before the date shown below.
But please don't wait until the last moment.
The sooner we receive your form, the sooner The
Doctors Hospital Plan will cover you. You risk
nothing by acting promptly. You may lose hundreds
of dollars in “extra cash” benefits through needless
delays. Mail your enrollment form today!
